Does this look **familiar?**

Thousands of photos. No story to tell.

Your best moments are trapped — buried in a camera roll or fading in a shoebox. Organizing, editing, writing, and designing a book **takes time and skill** most of us simply don't have.

Take those tasks **off your hands**

That's where I come in. You bring the memories; I'll craft them into a beautiful, professionally designed keepsake.

Storyline is a one-woman business. After a long, fulfilling career in school communications and journalism, I retired — but I still write often and I'm an enthusiastic amateur photographer. For years I've designed photo books for friends and family. **Now I'd love to make one for you.**
